Who's running the programme?

John Bullock

I would highly recommend John as a creative management coach who can help you harness the power of your organization and move well beyond traditional thinking. John has had superb success with our company in various settings and cultures. Everyone I have talked to about their experience with John agrees that he has both the knowledge, dynamic and methodology to work with people and get at the heart of what makes us want to succeed and provides a clear and logical way of getting there. I look forward to the next time we work together.

The Solution Focused approach...

The Solution Focused approach has been developed over many years and is based on Solution Focused brief therapy. This approach aims to help understand and change an individual's thinking, engaging their powerful emotions to adopt new and improved solution focused actions & behaviours. This helps the individual, group or organisation to achieve maximum success.

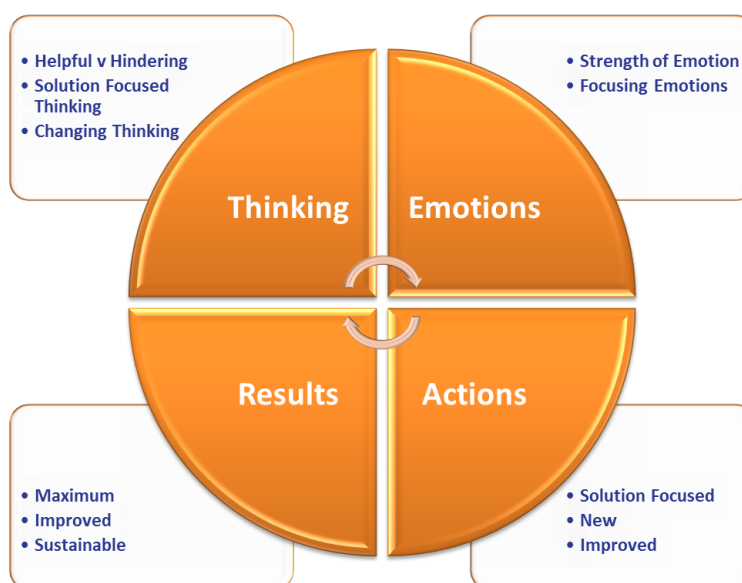

Thinking, Emotions, Actions, Results:

Thinking: We engage people personally with helpful Solution Focused Thinking

Emotions: We inspire them to use their powerful emotions

Actions: People are able to take new and improved actions & behaviours

Results: People generate maximum results!
