We're so sure you'll experience real and tangible outcomes that we'll refund your full investment! if you are not satisfied after just 90 days.

How can we make this promise?

Quite simple – Our Solution Focused Leader Programme employs 'Solution-Focused' learning techniques with a proven track record of success around the world.

What is Solution Focused Thinking?

For 30 years, Solution Focused Brief Therapy (SFBT) has been developed as a positive and pragmatic way to work with individuals and organisations. As the name suggests, it's about focusing on solutions, rather than problems. We say, rather than focusing on what is wrong, it is much more effective to talk about solutions. Thus bringing a degree of realistic, effective relief as quickly as possible. The approach values simplicity in philosophy and language, aiming to discover "what works" in a given situation, simply and practically.

This unique Leadership Programme has an optional nationally accredited ILM Level 5 Award in Leadership and Management.

You can choose to run this full programme, mix and match modules or opt for a bespoke solution. [Contact us for more information.](#)
